

EMPOWER SENIORS

Be a Tech Squad Volunteer!

We are inviting teenagers, young adults, and individuals of any age who are tech-savvy to volunteer and deliver tech training and one-on-one support services to seniors.

Volunteering to teach older adults about computers and the Internet is an excellent opportunity for community service programs in colleges, high schools, religious institutions, and the like!

TECH SQUAD

LET'S HELP SENIORS CONNECT THROUGH TECH!

Open Up A World of Communication!

We hope to bring news, information, and photo sharing to the growing segment of older adults who want to improve their skills with new technology.

Do you...

- Enjoy working with older adults?
- Have the ability to communicate with patience and understanding?
- Have the technical and problem-solving skills to work with smartphones, tablets/iPads, and laptops?
- Have proficiency in downloading and setting up applications, especially videoconferencing tools and platforms?
- Have time to commit 3-5 hours on weekdays, from 9 AM to 5 PM?
- Have proficiency in any additional non-English languages? *Optional*
