

Who Do We Serve?

Felton's Full Circle Family Program (FCFP) assists minors in the tenderloin, South of Market, Western Addition, Mission, Bay View-Hunters Point and Visitation Valley neighborhoods of San Francisco who have emotional and behavioral difficulties.

FCFP focuses on serving target populations of greatest need, including foster care children, dually diagnosed, LGBTQ identified, children and adolescents who have experienced trauma, are homeless, are being discharged from hospitalization, and other underserved populations.

Our program works with issues of:

- Trauma, lack of safety at the community level due to issues of violence, and premature death of a family member or someone they know
- Child abuse and neglect
- Children who exhibit challenging behaviors at school and/or home
- Depression
- Anxiety
- Low self-esteem
- Have attachment challenges

OUR CLINIC LOCATION

1663 Mission Street, Suite 604
San Francisco, CA 94103

Office: (415) 474-7310 ext. 453

fccfp@felton.org

Felton's Full Circle Family Program (FCFP) offers outpatient mental health services to diverse, low-income children and youth **under 18 years old** and their families.

The program uses a family-strengths approach, working with children in the constellation of their caregivers, family, and broader support systems, including schools and community-based organizations

Our program seeks to make outpatient mental health services more accessible to San Francisco residents by targeting **EPSDT eligible residents** who are not currently served by the San Francisco community mental health system.

Our clinic space includes a family therapy room, teen group, group room and play therapy room.

Felton Full Circle Family Program

PROGRAM OVERVIEW

Our services are offered in English and Spanish

As a comprehensive mental health clinic serving young children, youth, and their families, Felton's Full Circle Family Program (FCFP) takes a holistic approach to address the social and emotional needs of families.

Our program utilizes innovative and culturally sensitive approaches to community mental health, including evidence-based modalities such as Functional Family Therapy.

We focus on a range of behavioral health issues including trauma related conditions, mental illnesses, family and intergenerational conflicts, reunification, recent immigration, domestic violence, and community violence.

Clinical services offered focus on assessment, diagnostic evaluation, plan development, consultation, case management, individual and/or family therapy, crisis intervention, rehabilitation, medication support services, and collateral services.

These services are provided at our clinic as well as in the schools and in clients' homes and communities. We seek to meet clients and families wherever is most comfortable and appropriate for their needs.

Our Services Include:

- Individual and family therapy and other adjunct forms of treatment
- and support, as warranted
- Family systems assessment and interventions
- Mental health services: assessment, plan development, therapy, rehabilitation, and collateral
- Case management
- Crisis intervention
- Mental health outreach and promotion
- Psychiatry services including medication management and evaluation

Referral Sources:

Our referral sources include the San Francisco Department of Public Health's Community Behavioral Health Services, the San Francisco Unified School District, foster care and other community-based organizations, as well as families themselves.
